

Kelly Bearfield, Executive Director
Eden Heights of Olean/Premier Senior Living

Lindsee Beckham's journey at Eden Heights of Olean is one of heart, determination, and purpose.

She first walked through the doors as a housekeeper, quietly making a difference by keeping the community clean and comfortable. But it didn't take long for Lindsee to realize her impact could go far beyond tidying rooms—her heart was with the residents. She loved sitting with them, listening to their stories, and finding small ways to brighten their days.

Driven by that passion, Lindsee became a Personal Care Assistant, where her natural compassion and dedication quickly stood out. She went above and beyond, always putting residents first, and soon stepped into the role of Medication Technician. There, she continued to shine—earning the trust of families, physicians, and her team. Her leadership came naturally, often serving as shift supervisor thanks to her strong work ethic, knowledge, and ability to guide others with confidence and kindness.

With encouragement and a little push, Lindsee took an even bigger step—following in her mother's footsteps—and went to nursing school. She proudly earned her Licensed Practical Nurse degree, opening doors to countless opportunities. Yet, despite multiple job offers, her heart led her right back to where it all began.

Lindsee chose Eden Heights of Olean.

She chose the residents she had grown to love.
She chose the team she had become a part of.
She chose to continue making a difference where it mattered most.

Today, as Wellness Director, Lindsee leads with the same humility and compassion that started her journey. She is no stranger to hard work—if she's not in her office, you'll likely find her right beside a resident, offering care, comfort, and a warm smile.

This summer, Lindsee celebrates one year as Wellness Director—a milestone that reflects years of dedication, growth, and unwavering love for those she serves.

From housekeeper to director, Lindsee Beckham's story is a beautiful reminder that when you lead with heart, anything is possible.
